

I understand that some Banks are requesting the no call list be weakened to all for up to 18 month of calls from telemarketers. I don't think the NO Call list is strong enough as it is. It shouldn't allow nonprofits to call either. I see calls in my home as being the same as spam in my e-mail. If I wanted their services I would look for them myself. I would never buy anything from a spam call or a spam e-mail.
